Hazardous Weather

Watching Wednesday

Elevated Fire Weather South - Storms North/Far East

Weather Forecast Office

Amarillo, TX

Issued Apr 01, 2019 5:02 AM CDT

- Fire weather concerns due to dry, warm and windy conditions across southwest
- Storms will likely form along dryline near OK/TX state line and near the cold front during afternoon/evening
- Stay tuned for updates to the forecast

f t NWSAmarillo

weather.gov/ama

A dryline will form Wednesday afternoon near the TX/OK state line. Warm and windy conditions are expected west of the dryline, with thunderstorm chances along and east of the dryline (strong to severe storms possible, mainly on the OK side of the state line). Other showers and storms may form near the cold front, but may be limited by a lack of low level moisture. Elevated fire weather conditions will likely develop in portions of the southern and western Texas Panhandle due to stronger winds and low RH values Wednesday afternoon. The cold front will sweep through the area Wednesday evening, resulting in northerly winds and slightly cooler conditions going into Thursday.

Severe Storms Possible Wednesday

Timing: Late Afternoon and Evening

Weather Forecast Office

Norman, OK

Issued Apr 01, 2019 2:08 AM CDT

Some strong to severe storms could develop near a dryline. Large hail and strong wind gusts will be the primary hazards.

Check back for the latest updates.

f t NWSNorman

weather.gov/norman

Some strong to severe storms could be possible late Wednesday afternoon and evening across parts of western OK and western north TX. Large hail and strong wind gusts will be the primary concerns.

Hazardous Weather

Severe Weather Possible Thursday

Know Your Severe Weather Safety Plans!

Weather Forecast Office
Shreveport, LA

Issued April 1, 2019 3:45 AM CT

Severe weather possible Thursday, including:

- Large Hail
- Damaging Winds
- Isolated Tornadoes

Still too early to know the exact timing and location of the greatest threat.

Now is the time to make sure you have a severe weather plan!

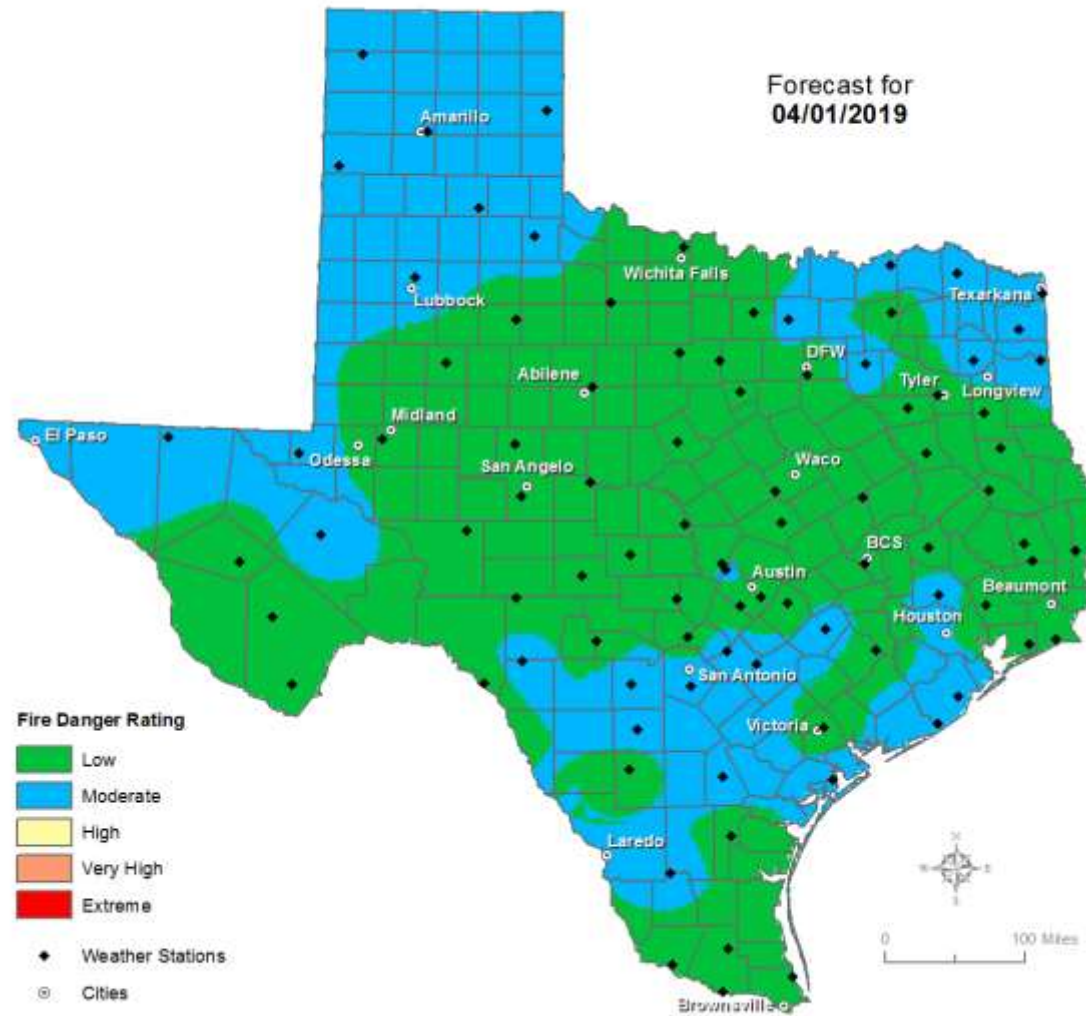

NWSShreveport

weather.gov/shv

An upper level disturbance will move across the region on Thursday, bringing the possibility of severe thunderstorms. Large hail and damaging winds are the primary threats with the possibility of an isolated tornado.

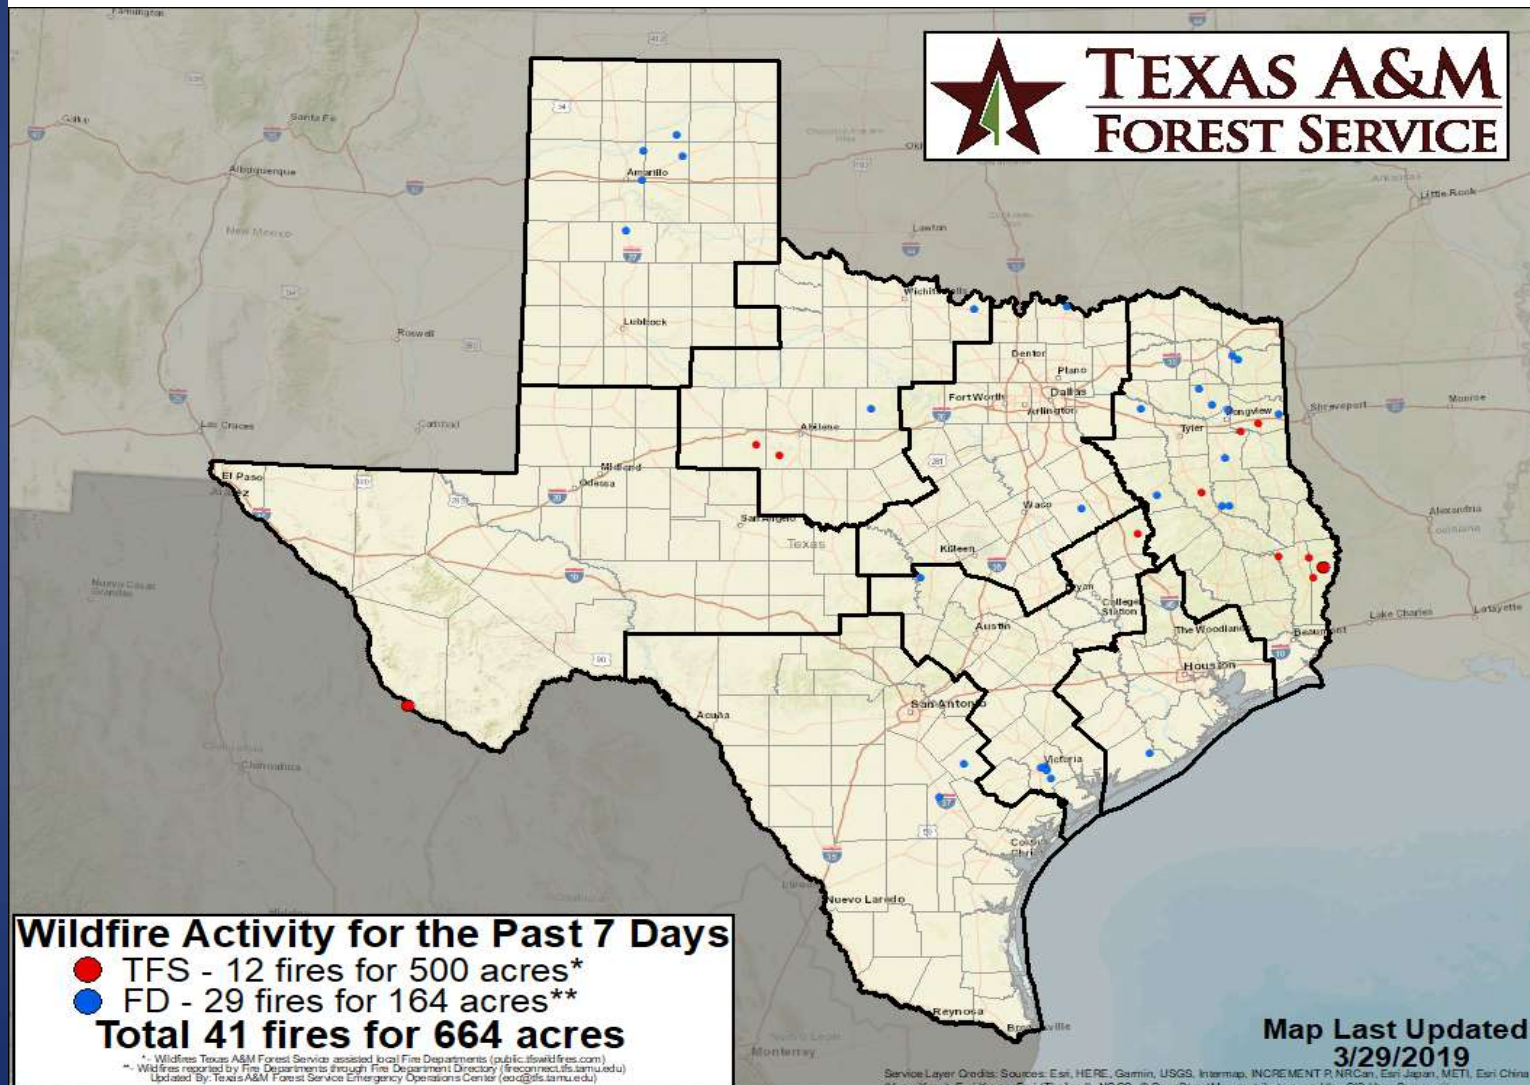

Fire Danger Forecast

Forecast Fire Danger

Fire Activity (*Last 24 Hours)

Reports 66 (no change) fires and 17,006 (no change) acres destroyed this year. There are 55 (no change) counties with burn bans. The Keetch-Byram Drought Index list 7 (-1) counties with an average over 400.
